

IN THE ABSTRACT:

Please amend the abstract as follows. A clean revised copy is enclosed on a separate sheet.

ABSTRACT

~~The invention refers to a~~ A device for supply of a gas to a volume (V). ~~The device~~ includes a supply conduit-(1), which is connectable to a gas source-(2) and which includes an outlet end, and a porous body-(3), which is provided at ~~said~~ the outlet end. The device is arranged to permit ~~said~~ the supply of the gas through the porous body-(3). The device includes an attachment member-(15) which includes a surface and a channel extending through the surface. The porous body is attached to ~~said~~ the surface and the outlet end is connected to the attachment member in order to permit ~~said~~ the supply via ~~said~~ the channel.
